

ACCESSORIES

HVI can provide all the accessories needed to put together a complete fault locating system. Fault locating is an approach, not just a thumper. Don't spend a lot of money on a thumper but not the extra few thousand for a top level listening device to make it most effective. Don't thump for hours wasting time and damaging your cable when a TDR trace can show you the fault location in two minutes, quickening sectionalizing and repair. Consult with HVI on the accessories most appropriate for your situation. We have our favorites but can supply anything needed. For a TDR, nearly any model now available works great.

Cable reels
